Amborn Stone office 913-837-6729

8811 W 247th St Louisburg, KS 66053

After hours 913-752-7000 (text only)

Amborn Stone loading area directions:

From US 69 Hwy, go west on 247th Street 500 feet, Enter at Sign for HAMM LOUISBURG QUARRY on south side of 247th. Look immediately for a **WHITE Shipping Container with the sign AMBORN STONE on it. Turn in to the loading area.** CB Channel 3. You will weigh in empty on our scales at the white shipping container (not the tan building).

Dunnage (boards) recommended for flatbeds and step-decks. No Conestoga trailers. We load most ledge stone blocks with excavator and thumb, not forklifts. Chains are acceptable and recommended. Straps are okay if that is all you have. We do not provide any dunnage or load securing devices.

Centrally located and just 25 miles from 3 major interstates.
